### How to use the Sweet Set™ System Size Chart:

For easy and quick identification of 2", 3", 4" & 5" template size repeats, we have color coded the creative grids® gripper strip ink on each template to correspond to same size repeats on all shapes of creative grids® Sweet Sets™ by Pat Barry. This allows your quilt design to have many different curves or scallops all with matching size repeats when used with the patented Sweet Set™ System Chart to the left.

2" repeats – Orange      3" repeats – Green      4" repeats – Blue      5" repeats – Purple

### The unique benefits of the Sweet Set™ System includes:

- Designed by Pat Barry, Professional Quilter.
- **Creative Grids®** Non-slip Gripper Strips™ to help hold when marking or stitching.
- Made of ¼" thick clear acrylic.
- Exceptional quality, accuracy and clarity.
- Each border template has two pieces: a Placement Guide and a Machine Guide.
- Marked with reference lines for accurate placement.
- The patented Sweet Set™ System chart uses a formula to recommend a template size based on the quilt dimensions.
- The "math" is built in, making it easy to use.
- The Sweet Set™ tools produce accurate stitch lines because they adjust for the offset caused by the design of the hopping foot. Specifically, most machines have a circular guard around the needle for safety. When the templates are used to guide the machine's sewing path, the guard causes the stitch line to be offset, usually by ¼".
- The Sweet Set™ tools are safe because they won't slip under the hopping foot.
- The Sweet Set™ tools can be used to mark designs as well as a guide when stitching them.
