Winey-Coasters

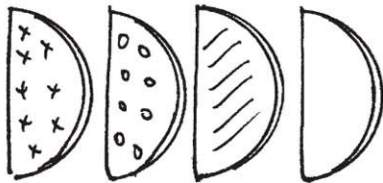

by Rita Fishel

Winey-Coasters

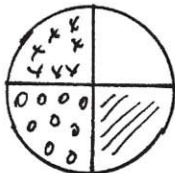

- 1) From your Creative Grids® Circle Set cut 6 – 5½" circles from coordinating fabrics.

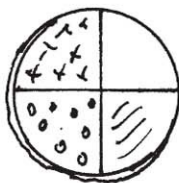

- 2) Fold 4 of these fabric circles in half, right-sides-out.

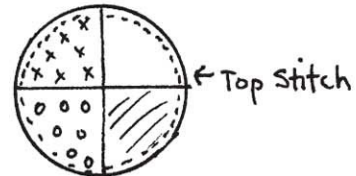

- 3) Lay these folded circles over each other, ends woven as if a box-lid folded closed.

- 4) Place the last 2 circle fabrics together, right-sides-out, and place them carefully underneath the folded half-circles.

- 5) Stitch around the circles, ¼" in from the raw edge. Clip the curves. Turn right-side-out through the "hole" in the folded and tucked half-circles.

- 6) Slip the bottom of a wine glass into the coaster through the opening in the center. It will stay on the wine glass.

- 7) Felt or flannel can be used as the bottom circle on the coaster. To do this, use the flannel circle as one of the 2 un-folded circles placed together right-sides out. The flannel/felt circle should be directly beneath the 4 folded half-circles as the set is stitched together.
